Properties

- **Glass crate/dishwasher basket (600 x 400 x H 155 - 275 mm) from the BLACK LINE series**
- **Stylish colour variant for the event sector. Matching products from the BLACK LINE are listed below under ‘Related products’**
- **Clixrack glass crates fit like a tailor-made suit, ensuring safe transport and storage of your glassware and crockery**
- **The open construction of the baskets ensures an optimal washing result and drying process**
- **The inner corners are open, allowing the rims of the glasses in the outer ring to be cleaned properly as well**
- **The Clixrack system offers a wide range of standard compartment divisions - all also available in black (see product photos)**
- **The type of compartment division for the Clixrack depends on the diameter of the glass. With a size chart, you can easily determine the suitable basket layout. Contact us to receive the size chart**
- **Clixrack glass crates have Euronorm dimensions and therefore fit on standardised mobile plastic trolleys, roll containers and plastic pallets**
- **Clixrack dishwasher baskets can be stacked stably with most Euronorm stacking bins 600 x 400 mm**
- **Clixrack baskets have holders for colour clips on all 4 sides; intended for content identification or ownership markings**
- **Thanks to the double base construction, the dishwasher basket is suitable for use in basket transport machines with transport hooks**
- **Options: different basket colour - different compartment division - different basket height**

Description

Clixrack glass crate/dishwasher basket (600 x 400 mm) from the BLACK LINE series. Black colour variant with a stylish appearance for use in the event sector. Fitted with a top frame and assembled with tube extenders. With compartment divisions for 40 glasses (max. Ø 66 mm), both in the base basket and in the top frame. The basket is matched exactly to the height of the glassware, ranging from 110 to 230 mm. Clixrack baskets have holders for colour clips on all 4 sides for lettering or content identification.
Clixrack baskets can be stacked stably with each other, as well as with other Euronorm bins and crates. Thanks to their Euronorm format, they fit perfectly on mobile plastic trolleys, roll containers or plastic pallets. Because Clixrack baskets are fitted with suitable plastic compartment divisions, the fragile contents are well protected. The open construction of the basket ensures an optimal washing result and a faster drying process. In short: cost-saving cleaning, safe transport and space-saving storage of glassware and crockery is now possible with a single basket.
Do you know the height and diameter of your glass or item of crockery? Pass this on to our product advisers. They will be happy to advise you on the most suitable version for your needs.
