Euro fillet box 18 kg / 32 liter - 600 x 400 x H 225 mm - without drainage - blue

Product specifications

External dimensions (L x W x H)	600 × 400 × 225 mm
Internal dimensions (L x W x H)	434 × 319 × 220 mm
Max. stacking load (kg)	300 kg
Capacity	32 liter
Handles	Open
Sidewalls	Closed
Material	HDPE
Article number	83861310
Weight (kg)	2,1 kg
Temperature range	-30°C to +40°C, briefly up to +90°C
Color	Blue
Bottom	Closed base without drain holes
Load capacity (kg)	30
Stacking height (mm)	208
Nesting height	55

Properties

- **Euro fillet box 18 kg / 32 liter. Dimensions 600 x 400 x H 225 mm**
- **With a closed base - without drainage**
- **The 600 x 400 mm Euronorm size offers logistical advantages during transport and storage**
- **The fish boxes are stackable and nestable**
- **The nesting principle saves a considerable amount of space - an important advantage in processing areas and logistics**
- **With a marking as a visual stacking/nesting aid**
- **The handgrips are particularly strong and user-friendly**
- **Food-safe and suitable for direct contact with food**
- **Easy to clean and with good drainage of wash water**
- **Very robust design for a long service life**
- **Options: printing - lid - transponders**

Description

18 kg fish fillet box (32 liter) in **Euronorm format 600 x 400 x H 225 mm** with a **closed base**. Designed for the safe processing and distribution of fresh fish and fish fillets, without leakage of meltwater or other liquids.

Product details

The Euro fillet boxes are **stack-nestable**. Nesting the empty boxes saves a considerable amount of space. A marking on the upper rim of the fillet box indicates how the box should be positioned for nesting. The fillet box has a 32-liter capacity and is suitable for up to 18 kg of fish and fish fillets.

The Euro fillet boxes combine perfectly with **Euro pallets** (1200 x 800 mm). Exactly four 600 x 400 mm fillet boxes fit on one Euro pallet. This provides efficient logistics and **optimal use of space** during storage.

Application

Euro fillet boxes in the version **without base holes** are widely used in the **processing** and **distribution** of fresh fish and fish fillets. They are often used in combination with plastic pallets, such as our H1-F Euro fish pallets, on which the Euro fillet boxes can be safely centred.
