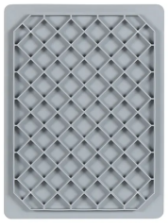
Article number: 30.440.KO.1 Printing possible

Plastic case - 400 x 300 x H 415 mm - Grey - Stacking bin with lid and case handles



Product specifications

External dimensions (L x W x H)	400 × 300 × 415 mm
Internal dimensions (L x W x H)	354 × 255 × 385 mm
Max. stacking load (kg)	150 kg
Capacity	37.5 liter
Handles	Closed
Sidewalls	Closed
Material	PPC
Article number	30.440.KO.1
Weight (kg)	2,5 kg
Temperature range	-20°C to +50°C, briefly up to +90°C
Color	Grey
Bottom	Closed, extra reinforced
European Article Number	7424901512548
Colorcode	RAL 7040
Load capacity (kg)	25
Quantity per pallet	40
Stacking height (mm)	403

Properties

- **Plastic case with hinged lid and carrying handle on the front. Dimensions 400 x 300 x H 415 mm including lid. Part of our SOLID LINE**
- **The lid is hinged and fitted with two sliding snap fasteners**
- **The fasteners snap shut when the lid is closed. To open the case, the lid is unlocked by sliding the fasteners outwards**
- **When opened horizontally, the lid is removable, provided no hinge reinforcements are fitted**
- **Fully closed design - both side walls and base**
- **With closed handgrips - for optimal use of volume and protection against dust and other external influences**
- **With reinforced base**
- **Food-safe and hygienically designed**
- **Options: printing - hinged lids in a different colour - hinge reinforcements**

Description

Case from the SOLID LINE

Plastic case in Euronorm format (400 x 300 x H 415 mm - 37.5 liter). The case consists of a stacking bin, a hinged lid with two sliding snap fasteners and a carrying handle on the front, i.e. the long side. Finished in **grey** and part of our SOLID LINE.

Application

The SOLID LINE is a product range designed primarily for **professional use**. The case can be closed easily and efficiently using the sliding snap fasteners, allowing both storage and transport to take place without difficulty. Our plastic cases are therefore used across a wide range of industries. Applications range from presentation cases for product samples to storage cases for delicate tools or measuring instruments. Laboratories and electronics manufacturers also use our plastic cases. In all cases, users are looking for a robust and efficient solution for transporting and storing **fragile or valuable goods**.

Product details

Thanks to its **standardised dimensions** (400 x 300 mm), the case is **stackable with all other Euronorm cases and stacking bins** and combines perfectly with standardised pallets, mobile bases or roll containers.

The case is food-safe, hygienically designed and fitted with two **closed handgrips** for optimal use of volume and maximum protection of the contents against external influences. With a **reinforced base**.
