Stacking bin - 800 x 400 x H 120 mm - type MIDI BOX - closed handgrips - reinforced base - grey

Product specifications

External dimensions (L x W x H)	800 × 400 × 120 mm
Internal dimensions (L x W x H)	756 × 355 × 108 mm
Max. stacking load (kg)	250 kg
Capacity	29 liter
Handles	Closed
Sidewalls	Closed
Material	PPC
Article number	8.804012.D.1
Weight (kg)	1,91 kg
Temperature range	-20°C to +50°C, briefly up to +90°C
Color	Grey
Bottom	Closed, reinforced
European Article Number	7424900335339
Load capacity (kg)	25
Quantity per pallet	57
Stacking height (mm)	108

Properties

- **Dimensions: 800 x 400 x H 120 mm**
- **Capacity: 39 liters**
- **Food-safe**
- **Completely closed plastic stackable container**
- **Reinforced bottom for extra strength**
- **Handles on both short sides for easy handling**
- **Suitable for various applications, such as storage and transport of food products and other goods.**

Description

Plastic **MIDI BOX stacking bin** in **Euronorm format** (**800 x 400 x H 120 mm** - 29 liter) with closed handgrips and a reinforced base.

Product details

The format of our **MIDI BOX** is based on the footprint of a standard Euro pallet (1200 x 800 mm). Exactly **3 bins** fit on one layer of a **Euro pallet**. This ensures optimal use of pallet space while keeping handling to a minimum, as only three bins are used per level. Thanks to the modular **800 x 400 mm** dimensions, there is **no wasted space** and the bins form a **compact stack** on Euro pallets. This Euronorm size can also be used in many distribution centres with automated conveyor systems such as roller conveyors and shuttle systems.

Applications

MIDI BOXES are widely used for **bulky goods** and products that do not fit in a standard 600 x 400 mm bin. Users can be found in industry and skilled trades, as well as in hospitality, catering and logistics. Private users also make frequent use of our MIDI BOXES. These large-volume bins are also often used for customised solutions, for example with picking openings or dividers for smaller items. Thanks to its standardised dimensions (800 x 400 mm), the MIDI BOX can be stacked easily with other Euronorm bins measuring 800 x 400 mm or 400 x 400 mm. This modular bin also combines perfectly with standardised Euro pallets, transport trolleys and roll containers. The stacking bin is food-safe and features a hygienic design for easy cleaning.
