Article number: 30.027I.EPP

Insulated box-in-box with lid - 400 x 300 x H 273 mm - stackable

Product specifications

External dimensions (L x W x H)	400 × 300 × 273 mm
Internal dimensions (L x W x H)	320 × 220 × 190 mm
Capacity	12.4 liter
Handles	Stacking bin: open - insulated box: recessed handles on ground level.
Sidewalls	Stacking bin: closed - insulated box: closed and smooth
Material	PPC
Article number	30.027I.EPP
Weight (kg)	1 kg
Bottom	stacking bin: closed and reinforced - insulated box: closed and smooth
Quantity per pallet	64

Properties

- **Insulation box-in-box system, consisting of a plastic stacking crate and a removable insulation box with a clamping lid.**
- **The clamping lid seals hermetically, minimizing temperature loss.**
- **The insulation box is made of EPP (25 mm), providing high insulation value and long lifespan.**
- **The accommodating stacking crate has closed walls and bottom (see "Related products").**
- **The stacking crate provides extra protection for the insulation box.**
- **External dimensions conform to Euro norm, allowing seamless stacking with other Euro norm stacking crates and bins (400 x 300 mm and 600 x 400 mm).**
