- **Glass basket 50.NK.160 is supplied with double subdivision, both in the lower basket and in the upper frame; the basket structure is provided with an extra intermediate frame for tall glasses**
- **Open construction for optimum washing result**

Description

Glass basket (500 x 500 mm) with height precisely adjusted to glass height. Basket height ranges from 235 mm to 285 mm, making it suitable for glass heights from 190 mm to 240 mm. This basket variant comes with a double compartment divider, both in the lower basket and in the upper rim. The basket construction features an additional intermediate frame for tall glasses. The basket has four-sided receptacles for color clips for content indication, etc. The bottom is open and specially reinforced, making the basket ideal for use in basket transport machines with transport hooks. Side walls and bottom have an open design for optimal rinsing results and faster drying process. In short, our baskets serve as a "tailor-made suit" for your glassware and other porcelain, preventing breakage and waste of valuable storage space. Moreover, the open design ensures rinsing results that are absolutely presentable.
