Product specifications

External dimensions (L x W x H)	600 × 400 × 250 mm
Internal dimensions (L x W x H)	568 × 368 × 234 mm
Capacity	48.9 liter
Handles	Open (four openings)
Sidewalls	Perforated
Material	HDPE
Article number	30.125.4x6.UO
Weight (kg)	2,5 kg
Temperature range	-30°C to +40°C, briefly up to +90°C
Color	Grey
Bottom	Perforated, reinforced
European Article Number	7424914766723
Maximum glass height	222
Maximum Ø glass	85
Quantity per pallet	36
Stacking height (mm)	240

Properties

- **The dimensions of the glass determine the choice of crate and compartment division: measure the height and diameter at the widest point**
- **Plastic glass crate from the BASIC LINE. Dimensions 600 x 400 x H 250 mm**
- **Fitted with a double compartment division 4 x 6 - for 24 glasses or cups**
- **Maximum glass height: 222 mm - maximum Ø 85 mm**
- **The crate is fully perforated - both the walls and the base**
- **Large perforations ensure optimal access for rinse water and drying air**
- **Suitable for storage, transport and cleaning of glassware and tableware**
- **The compartment division protects against scratches and breakage**
- **The glass crates can be stacked with other Euronorm bins such as plate crates and cutlery bins**
- **BASIC LINE glass crates are ideally used in combination with standardised mobile plastic trolleys, roll containers and pallets**
- **Options: loose-fit lid - printing (short side) - coversheets**

Description

Please note - before ordering!

The dimensions of the glass determine the choice of crate and compartment division. Measure the exact height of the glass and the diameter at its widest point.

Plastic glass crate in **Euronorm format** (600 x 400 x H 250 mm). Finished in **grey** and part of the successful **BASIC LINE**. The glass crate is suitable for **24 glasses** or tableware with a maximum **height of 222 mm** and a **maximum Ø of 85 mm**. The glass crate is highly suitable for efficient storage and safe transport of glassware and tableware. In addition, the crate can be used in suitable dishwashers to clean the glassware. **One crate** therefore for **storage, transport and cleaning**.

Thanks to the **standardised dimensions** (600 x 400 mm), the stacking bin is **stackable with all other Euronorm stacking bins** (including plate crates or cutlery bins) and **perfectly compatible** with **standardised pallets** and **mobile plastic trolleys** or **roll containers**. This makes logistics efficient and **without loss of space**.

Application

The glass crate is fitted with a 24-compartment division, both at the top and at the bottom. The crate therefore provides 24 individual positions for glasses and, for example, cups. The tableware does not come into contact with each other and is therefore optimally **protected against scratches and breakage** during cleaning, storage and transport. **Rinse water** and **drying air** have **easy access** to the contents of the crate thanks to the coarsely perforated side walls and base. The glassware is therefore completely clean after washing in the glass crate.

The BASIC LINE is mainly used by rental companies, in the hospitality industry and by catering companies. Associations and company canteens are also satisfied users of this product range.
