Stack-nestable bin - 600 x 400 x H 300 mm - closed - open handgrips - grey/dark grey

Product specifications

External dimensions (L x W x H)	600 × 400 × 300 mm
Internal dimensions (L x W x H)	457 × 335 × 271 mm
Capacity	50 liter
Handles	Open
Sidewalls	Closed
Material	HDPE
Article number	9567.750.765
Weight (kg)	2,46 kg
Temperature range	-30°C to +30°C
Color	Grey
Bottom	Closed, flat
Max. load capacity per box	15 kg
Max. static stacking load	200 kg
Quantity per pallet	96

Properties

- **Robust plastic stack-nestable bin in Euronorm format 600 x 400 x H 300 mm**
- **Made from strong and durable HDPE**
- **Fitted with closed side walls, a smooth closed base and open handgrips**
- **Thanks to the 180° rotation system, stable when stacked and space-saving when nested**
- **Nestable design reduces volume during storage and return transport**
- **Smooth walls and base for easy cleaning and hygienic use**
- **Suitable for applications in the food industry, production, distribution and logistics**

Description

Robust plastic **stack-nestable bin** in Euronorm format (600 x 400 x H 300 mm). The bin is made from durable **HDPE** and features **closed side walls**, a smooth closed base and **open handgrips**. This makes it suitable for a wide range of storage, production and logistics applications.

Stackable and space-saving when nested

Thanks to the smart **180° rotation system**, filled bins can be stacked securely. When empty, the bins are rotated 180° and can be nested inside each other to save space. This significantly reduces the volume required for storage and return transport.

Application

The smooth walls and base make the bin easy to clean and hygienic in use. This makes the stack-nestable bin particularly suitable for applications in the **food industry**, production, distribution and logistics.
