Nestable retention bin - drip tray 40 liter - 760 x 470 x H 180 mm

Product specifications

External dimensions (L x W x H)	760 × 470 × 180 mm
Capacity	40 liter
Handles	Closed
Sidewalls	Closed
Material	HDPE
Article number	99.5021
Weight (kg)	2,2 kg
Temperature range	-30°C to +80°C
Color	Black
Bottom	Closed, reinforced

Properties

- **Nestable containment tray - drip tray measuring 760 x 470 x H 180 mm and with a capacity of 40 liters.**
- **Highly nestable, resulting in extreme space-saving during storage.**
- **Equipped with closed side walls, base, and handles for safety and convenience.**
- **Rounded corners and smooth walls for a modern design and easy cleaning.**

Description

The nestable containment tray - drip tray measuring 760 x 470 x H 180 mm with a capacity of 40 liters is a practical and space-saving solution. Its exceptional nestability allows these trays to be stored very compactly, saving valuable space when not in use.
Designed with closed side walls, a sturdy base, and convenient handles, this tray ensures safe and easy handling. The rounded corners and smooth walls not only contribute to the modern design but also facilitate cleaning and maintenance, making the removal of dirt and liquids an easy task.
Whether storing liquids, collecting leaks, or organizing various materials, this nestable containment tray - drip tray offers versatility and reliability. Its combination of space-saving features, durability, and functional design elements makes it a valuable addition to various environments such as warehouses, workshops, and households where efficiency and organized storage are crucial.
