Description

Plastic stacking bin in Euronorm format (600 x 400 x H 220 mm - 43 liter). Designed in red and part of our SOLID LINE - a product line that is used in a very wide range of applications. Users include industrial and craft businesses, as well as the hospitality, catering and logistics sectors.
Due to its standardised dimensions (600 x 400 mm), the stacking bin can be stacked with all other Euronorm stacking bins and is perfectly compatible with standardised pallets, mobile plastic trolleys or roll containers.
The stacking bin is food-safe, has a hygienic design and is fitted with two closed handgrips - for optimal use of the bin’s volume and to protect the contents as effectively as possible against external influences. Designed with a hygienic, smooth base (underside).
The stacking bin is also suitable for fitting hinged lids, optionally with snap closure. The lids are available in various colours. This allows different applications to be identified. We call this “colour coding”.
Everything for optimal logistics.
