# LIGHT stacking box with lid - 400 x 300 x H 255 mm - fully perforated - grey

## Product specifications

| | |
|---|---|
| External dimensions ( L x W x H) | 400 × 300 × 255 mm |
| Internal dimensions (L x W x H) | 357 × 256 × 225 mm |
| Capacity | 22 liter |
| Handles | Open |
| Sidewalls | Perforated |
| Material | PPC |
| Article number | 30.L424.DK.1 |
| Weight (kg) | 1,21 kg |
| Temperature range | -20°C to +50°C, briefly up to +90°C |
| Color | Grey |
| Bottom | Perforated, reinforced |
| Colorcode | RAL 7040 |
| Load capacity (kg) | 15 |
| Quantity per pallet | 36 |
| Stacking height (mm) | 242 |

## Properties

- **Modern grey lidded bin in LIGHT design. Dimensions: 400 x 300 x H 255 mm (including lid)**
- **The LIGHT series has a fully perforated design - both walls and base**
- **The perforations ensure optimal ventilation - to prevent spoilage of fresh products such as fruit and vegetables**
- **Condensation and leaking moisture are drained away through the open construction**
- **When open, the lid is removable (if designed without hinge reinforcements)**
- **Lidded bins can be stacked with each other, as well as with Euronorm bins without a lid**
- **With open handgrips for optimal carrying comfort**
- **Food-safe and hygienically designed - with minimal ribbing**
- **Options: printing - hinge reinforcements**

# Description

**LIGHT stacking box with lid**

Lidded crate from the LIGHT series in a fully perforated design - both walls and base. Fitted with a hinged lid with two snap-slide closures. The dimensions are Euronorm (400 x 300 x H 255 mm - 22 liter). This allows the lidded bin to be stacked with all other Euronorm bins and crates.

**Applications**

Our LIGHT series is a modern product line with rounded corners and minimal ribbing, which also reduces the weight. This makes LIGHT lidded crates particularly easy to handle and very user-friendly. Because the lidded crates are fully perforated - both walls and base - they are ideal for applications with products that need ventilation, such as fruit and vegetables. Any condensation or leaking moisture is drained away through the open construction. In addition, the open construction of the lidded crate ensures visibility of the contents. This is often required in both commercial and private use. Our LIGHT lidded crates are ideal for private use, but stronger and more durable than crates for household use.
