# Pallet box BIG BOX - 1200 x 1000 x H 760 mm - closed - 4 feet - grey

## Product specifications

| | |
|---|---|
| External dimensions ( L x W x H) | 1200 × 1000 × 760 mm |
| Internal dimensions (L x W x H) | 1110 × 910 × 610 mm |
| Capacity | 670 liter |
| Sidewalls | Closed |
| Material | HDPE |
| Article number | 4401.100.502 |
| Weight (kg) | 39,5 kg |
| Temperature range | -30°C to +40°C, briefly up to +90°C |
| Color | Grey |
| Bottom | Closed, reinforced |
| European Article Number | 7424901870891 |
| Colorcode | RAL 7040 |
| Max. load capacity per box | 500 kg |
| Max. static stacking load | 4500 kg |
| Max. dynamic stacking load | 1000 kg |
| Quantity per pallet | 4 |

## Properties

- **Dimensions: 1200 × 1000 × H790 mm - capacity: 670 litre**
- **Equipped with 4 feets**
- **Closed side walls, reinforced base - for safe storage**
- **Unique design with convex panels for up to 10% extra volume**
- **Very robust pallet box - widely used, with various options (see below)**
- **Specifically designed for durability, efficiency and versatility**
- **1" and 2" outlet fittings on one short side and one long side - for flexibility**
- **Available in grey and black**
- **Ideal for various sectors, including the food industry, warehouses and logistics**
- **Also widely used as a collection bin for metals and used batteries, etc.**
- **Options: lid - hinged lid - printing - QR codes or barcodes - dividers - drop door - mobile version - perforated version - loose feet - check taps - screw plugs**

## Description

The BIG BOX is a particularly robust plastic pallet box (1200 × 1000 × H760 mm - 670 litre) that has proven itself across a wide range of applications. Because the box is food-grade, it is primarily used in the food industry. The wide variety of available colours is also important for this sector, allowing different applications or departments to be distinguished - crucial for preventing contamination. Thanks to its convex, outward-bulging walls, a BIG BOX offers up to 10% more volume than conventional pallet boxes. This is a major advantage for loose products or bulk goods. An additional benefit is that the convex panels act as a buffer in the event of impacts, resulting in less damage. The aspect of “damage” also played a role in the decision to make the pallet feet removable. If damaged, the feet can be replaced so the box can function optimally again. Thanks to these positive product features, our BIG BOX is now used in virtually every sector: from European wine growing to pharmaceuticals, and from construction to the recycling industry - for example, for collecting used batteries.
