Pallet box BIG BOX with drop door - 1200 x 1000 x H 760 mm - closed - 4 feet - grey

Product specifications

External dimensions (L x W x H)	1200 × 1000 × 760 mm
Internal dimensions (L x W x H)	1110 × 910 × 610 mm
Capacity	670 liter
Sidewalls	Closed, with convex wall panels - one long side with a hinged flap
Material	HDPE
Article number	4401.150.502
Weight (kg)	39,5 kg
Temperature range	-30°C to +40°C, briefly up to +90°C
Color	Grey
Bottom	Closed, reinforced
European Article Number	7424908885898
Colorcode	RAL 7040
Max. load capacity per box	500 kg
Max. static stacking load	4500 kg
Max. dynamic stacking load	1000 kg
Quantity per pallet	4

Properties

- **BIG BOX plastic pallet box with a hinged drop door on one long side - on 4 feet**
- **Dimensions: 1200 × 1000 × H760 mm - 670 litre**
- **Drop door size: 740 × 315 mm (W × H)**
- **The hinged drop door is fully made of plastic (including hinges and latches)**
- **Opened and secured using two snap-slide latches**
- **Using the drop door significantly reduces the lift-over height (more than 30%)**
- **The drop door can also be operated when the boxes are stacked**
- **When open, the drop door does not block the entry openings of the base, so a pallet truck or forklift truck can enter without issues**
- **Closed side walls, reinforced base - for safe storage**
- **Unique design with convex panels for up to 10% more volume than comparable pallet boxes**
- **Very robust pallet box - widely used, with various options**
- **Options: lid - lettering - QR codes and barcodes - dividers - 2 fixed and 2 swivel castors - stainless-steel castors (white nylon wheel) - check taps - screw plugs**

Description

The BIG BOX is a particularly robust plastic pallet box and also highly versatile. Thanks to its strong product features, this pallet box range has been introduced in many different versions - and very successfully. The version described here is fitted with a hinged drop door on one long side. This plastic drop door significantly reduces the lift-over height (approx. 30%), making loading and emptying the box much easier. This is user-friendly and highly efficient in day-to-day order picking and warehouse operations. It also works perfectly when stacked, because the drop door can still be operated in that position. In addition, the design takes into account that the pallet box may need to be moved with a forklift truck or pallet truck. This is also possible with the drop door open, because it does not block the entry opening. All in all, the BIG BOX with drop door is a user-friendly load carrier that has been designed with every key aspect in mind.
