Pallet box BIG BOX - 1200 x 800 x H 790 mm - closed - 3 runners - red

Product specifications

External dimensions (L x W x H)	1200 × 800 × 790 mm
Internal dimensions (L x W x H)	1110 × 710 × 610 mm
Capacity	535 liter
Sidewalls	Closed
Material	HDPE
Article number	4403.300.246
Weight (kg)	38 kg
Temperature range	-30°C to +40°C, briefly up to +90°C
Color	Red
Bottom	Closed, reinforced
Colorcode	RAL 3020
Max. load capacity per box	500 kg
Max. static stacking load	4500 kg
Max. dynamic stacking load	1000 kg
Quantity per pallet	3

Properties

- **Abmessungen: 1200 × 800 × H790 mm - Kapazität: 535 Liter**
- **Ausgeführt mit 3 Palettenkufen**
- **Geschlossene Seitenwände, verstärkter Boden - für eine sichere Lagerung**
- **Einzigartiges Design mit konvexen Paneelen für bis zu 10% mehr Volumen**
- **Sehr robuste Palettenbox - vielfach im Einsatz, mit diversen Optionen (siehe unten)**
- **Speziell entwickelt für Langlebigkeit, Effizienz und Vielseitigkeit**
- **1"- und 2" Ablaufmöglichkeiten an einer kurzen sowie einer langen Seite - für maximale Flexibilität**
- **Erhältlich in den Farben grau, rot, blau, grün, schwarz und gelb**
- **Ideal für diverse Branchen, darunter Lebensmittelindustrie, Lager und Logistik**
- **Auch häufig als Sammelbehälter für Metalle und gebrauchte Batterien usw. eingesetzt**
- **Optionen: Aufliegedeckel - Scharnierdeckel - Bedruckung - QR-Codes oder Barcodes - Kufenverstärkungen - Kufen-Befestigungsschrauben - Trennwände - Frontklappe - fahrbar - perforiert - lose Kufen - Kugelhähne - Drehstopfen**

Description

The BIG BOX is a particularly robust plastic pallet box (1200 × 1000 × H790 mm - 535 litre) that has proven itself across a wide range of applications. Because the box is food-grade, it is primarily used in the food industry. The wide variety of available colours is also important for this sector, allowing different applications or departments to be distinguished - crucial for preventing contamination. Thanks to its convex, outward-bulging walls, a BIG BOX offers up to 10% more volume than conventional pallet boxes. This is a major advantage for loose products or bulk goods. An additional benefit is that the convex panels act as a buffer in the event of impacts, resulting in less damage. The aspect of “damage” also played a role in the decision to make the pallet runners removable. If damaged, the runners can be replaced so the box can function optimally again. Thanks to these positive product features, our BIG BOX is now used in virtually every sector: from European wine growing to pharmaceuticals, and from construction to the recycling industry - for example, for collecting used batteries.
