Article number: 30.099.00.N

Carrying handle with plastic grip - for asparagus crates - with anti-fold protection - electro-galvanised

Product specifications

External dimensions (L x W x H)	270 × 145 mm
Material	Steel
Article number	30.099.00.N
Weight (kg)	0,27 kg
Color	Grey

Properties

- **Metal carrying handle in an electro-galvanised version**
- **Formed from Ø 15 mm tubing - dimensions 270 x H 145 mm**
- **Fitted with a comfortable plastic grip**
- **Fitted with 2 pins at the ends, which can be clamped into the upper rim of the crates**
- **Can be easily removed again**
- **A third pin acts as anti-fold protection, allowing the handle to pivot while remaining almost vertical**

Description

Metal carrying handle designed for fitting to our asparagus crates from the **RX series**. The ergonomic carrying handle **with plastic grip** makes the crate practical to use even while harvesting asparagus in the field.

Application

The carrying handle is fitted with two pins at the ends, which are clamped into the pre-formed openings in the **upper rim** of our asparagus crates. The handle can also be removed easily, for example when the crate is full.

A third pin in the handle prevents it from **folding over**. This means the handle remains hinged while staying in an almost vertical position at all times. Particularly practical during harvesting, when full attention is focused on cutting the asparagus.
