Quantity per pallet 152

Properties

Lid provided with two snap-slide locks

With one case handle on the front

Lidded bins have a removable, hinged lid

All lidded bins with case handle are stackable with lid

Description

Gray plastic case with gray insert trays. The case has the Euro standard size of 400 x 300 mm and a height of 133 mm. The case is composed of a stacking container, hinged lid with two snap-slide fasteners and foam sheet in the lid, a handle at the front, and gray insert trays with a customizable layout. The foam sheet in the lid ensures that the insert trays are securely sealed during transport with a closed lid. This prevents the contents from getting into another insert tray, making the case highly suitable for safe storage and transport of parts and small items. The plastic case is also stackable with all other Euro standard cases and stacking containers when closed.
