## Description

Plastic case in **Euronorm format (400 x 300 x H 133 mm** - 11 liter). Finished in **red** and part of the SOLID LINE - a product range used in a wide variety of applications. Users are found in industry and craft sectors, as well as in retail and logistics. In addition, the case is also used for hobby purposes and in home environments.

**Composition**

The SOLID LINE case consists of a plastic stacking bin with hinged lid and **snap closures**. A practical case handle is mounted on the long side. The case is fitted with 2 SMART insert bins in **1/4** format and 4 insert bins in **1/8** format. All insert bins are finished in **black**. A **foam sheet** is mounted in the lid. When the lid is closed, this foam sheet ensures a good seal over the insert bins. During transport, the contents therefore remain exactly where they belong.

**Application**

Thanks to the **standardised dimensions** (400 x 300 mm), the stacking bin is **stackable with all other Euronorm stacking bins** and perfectly compatible with standardised pallets and mobile plastic trolleys or roll containers.

The case is food-safe, has a **hygienic design** and is fitted with a case handle. Designed with a hygienic, **smooth base** underside.
