Clixrack 600 plate basket - 30 saucers

Product specifications

External dimensions (L x W x H)	600 × 400 × 210 mm
Handles	Open handles in lower basket and upper frame, for more comfortable carrying
Sidewalls	Open, for optimum washing result and a faster drying process
Material	PP
Article number	50.CR.620.P.30
Bottom	Open and especially reinforced, so suitable for use in basket transport machines with transport hooks
Max. plate diameter	185
Maximum depth plate (D)	28

Properties

The Clixrack 50.CR.620.P.30 features a 2 x 12 and 1 x 6 subdivision in the basket for 30 saucers, max. Ø 185 mm. The subdivisions are present both in the base basket and in the upper rim.

When combined with two 15-compartment soup cup baskets (50.CR.600.15), it forms a practical rental unit, i.e., 30 cups with 30 saucers.

The open construction of the baskets ensures an optimal washing result.

Clixrack dishwasher baskets are Euro-standard sized, fitting mobile stands of 600 x 400 mm, 600 x 800 mm roll containers, Euro pallets of 1200 x 800 mm, and Industry pallets of 1200 x 1000 mm.

Clixrack dishwasher baskets stack with most Euro-standard stacking crates of 600 x 400 mm. Crates of 400 x 300 mm can be stacked on the Clixrack baskets.

Clixrack baskets have four-sided slots for color clips, intended for content indicators, etc. (see "Accessories").

Thanks to the double bottom construction, the dishwasher basket is suitable for use in basket transport machines with transport hooks.

Description

Clixrack plate basket (600 x 400 x min. H 165 / max. H 210 mm) with compartment dividers. Suitable for 30 plates up to Ø 185 mm. Clixrack baskets have receptacles on all 4 sides for color clips for labels or content indications. Clixrack baskets can be stacked stably together, even with other Euro-standard containers and crates. Due to their Euro-standard size, they fit perfectly on mobile bases, roll containers, or (plastic) pallets. Because Clixrack baskets are equipped with suitable plastic dividers, the fragile contents are well protected. The open construction of the basket ensures optimal rinsing results and a faster drying process. In short: cost-effective cleaning, safe transportation, and space-saving storage of glassware and dishes can now be achieved with one basket.
