Description

Clixrack baskets can be stacked stably together, also with other Euro-standard containers and crates. Due to their Euro-standard size, they fit perfectly on mobile bases, roll containers, or (plastic) pallets. Because Clixrack baskets are equipped with suitable plastic dividers, the fragile contents are well protected. The open construction of the basket ensures optimal rinsing results and a faster drying process. In short: cost-effective cleaning, safe transportation, and space-saving storage of glassware and dishes can now be achieved with one basket.
