## Description

Black stacking bin with lid in Euro norm size 600 x 400 mm. Made of food-grade plastic. The lid container is composed of a stacking container, white hinged lid, and two snap-slide closures. The lid container has a closed bottom with reinforced construction, making it suitable for heavier loads. The hinged lid is removable when in the open position. The container is also stackable with the lid. Due to its standardized dimensions, the lid container can be stacked with all other Euro norm stacking containers. Additionally, the lid container fits perfectly and without space loss on standardized pallets, rolling containers, and mobile bases.
