Custom made plastic trolley - 800x400mm - black

Product specifications

External dimensions (L x W x H)	810 × 410 × 200 mm
Dynamic load capacity	300 kg
Material	HDPE
Article number	8.TR8040.4.K
Weight (kg)	7,4 kg
Color	Black

Properties

- **Suitable for stackable containers of 800 x 400 mm.**
- **Also suitable for cargo with different dimensions (buckets, boxes, etc.).**
- **Low starting and rolling resistance.**
- **Floor-friendly and leaves no traces.**
- **Tread made of thermoplastic elastomer (85° Shore A).**
- **Temperature range: usable from -20°C to +60°C.**
- **Load capacity: 300 kg.**

Description

The black custom-made plastic dolly with grid frame offers a convenient and efficient way to transport heavy loads. Equipped with four galvanized swivel casters, this dolly is easily maneuverable, even in busy environments. What makes this dolly unique is the design of the grid frame: the middle part of the frame, measuring 800 x 600 mm, is removable, allowing the dolly to adapt to different loads. After the middle part is removed, the two side parts are securely welded back together, maintaining the dolly's structural integrity. With a maximum load capacity of 300 kg, this dolly is ideal for transporting various loads, including crates and boxes measuring 800x400mm. Whether it's moving goods in a warehouse, a store, or a factory, this dolly ensures reliability and durability. With its customizable design and robust construction, this dolly provides a versatile solution for various logistical needs.
