Article number: KBW10066120-10R

Double plastic bin trolley - 2 x 5 spaces (Euronorm)

Product specifications

External dimensions (L x W x H)	1000 × 660 × 1290 mm
Material	PVC
Article number	KBW10066120-10R
Temperature range	-40°C to +80°C
Color	Green

Properties

With plastic rear tubes, so that the bins at the back cannot slide out of the trolley

The double bin trolley is provided with six stainless steel swivel castors with nylon Ø 100 mm wheel, of which two braked, with stainless steel wheel fixing material

Description

Double container trolley 1000 x 660 x H1290 mm made of hygienic, food-grade plastic. The trolley has two rows of slots for loading with ten Euro norm stacking containers 600 x 400 mm, which are included. These consist of four stacking containers with a height of 220 mm and six stacking containers with a height of 120 mm. The plastic stacking containers are supplied in the color natural white. The trolley is equipped with four stainless steel swivel castors with nylon wheels Ø 100 mm, two of which are lockable. The wheels are attached with stainless steel fasteners. At the rear, the container trolley is equipped with a back pipe, preventing the plastic containers from falling out at the back. The trolley is made of corrosion-free PVC plastic and is therefore very easy to clean. It complies with HACCP guidelines for food safety and is suitable for use in a hygienic environment. Due to its temperature resistance from -40°C to +80°C, it can also be used in refrigerated and freezer cells. It is compactly packaged and delivered in a box. Easy to assemble without tools.
