Euro pallet CS1-L - 1200 x 800 mm - with 7 mm rims - 3 pallet skids, open with reinforcement ribs - black ESD

Product specifications

External dimensions (L x W x H)	1200 × 800 × 150 mm
Dynamic load capacity	1000 kg
Material	Comp 25 (ESD)
Article number	83192201
Weight (kg)	14 kg
Temperature range	-30°C to +40°C, briefly up to +90°C
Color	Black
Surface resistance	<10? ohms (according to DIN 53428 / IEC 60093)
Static load capacity	5000 kg
Edge height	7 mm
Load capacity in racks	400
Quantity per pallet	16

Properties

- **Electrostatic dissipative (ESD): protects sensitive components against charge build-up and electrostatic discharge**
- **Undersides of blocks and pallet skids are open with reinforcement ribs**
- **Raised rims around the deck of the CS1-L prevent loads from slipping and prevent empty pallets from sliding on each other**
- **The CS1-L is extra strong thanks to the robust connection between the skids and the blocks**
- **Optional fully welded (closed) skids increase the pallet's strength and impact resistance**
- **Marking, logos or numbering on request; location to be agreed**
- **Options: Pallet lid / pallet cover - QR codes and barcodes - RFID transponders - closed skids - version without rims, with 7 or 22 mm deck rims, with 22 mm side rims along the deck**

Description

Our ESD pallets are produced from high-quality plastic to which an ESD compound is added. This gives the pallet electrically conductive properties. It prevents electrostatic build-up and subsequent discharge, which can damage sensitive electronics.
The CS1-L is designed for efficient transport of Euro standard stacking bins (ESD version). For additional centring of a full pallet load with stacking bins, we supply a 1200 x 800 mm pallet lid in an ESD version.
