# Euro pallet H1-R - 1200 x 800 mm - made from standard regrind - with 7 mm rims - 3 pallet skids, welded underside - black

## Product specifications

External dimensions ( L x W x H)	1200 x 800 x 160 mm
Dynamic load capacity	1250 kg
Material	Standard regenerate
Article number	83102217TP
Weight (kg)	18 kg
Temperature range	-10°C, briefly up to +90°C
Color	Black
Static load capacity	5000 kg
Edge height	7 mm
Load capacity in racks	800
Quantity per pallet	15

## Properties

H1 pallet variant made from standard regrind - a mix of PE and PP

Equipped with 3 longitudinal pallet skids

Underside of the skids is welded - therefore completely smooth and closed

Pallet deck fitted with 7 mm raised rims all around

Suitable for use with packed food products

Racking load capacity up to 800 kg

Marking, logos and numbering on request; position to be agreed

Options: Pallet lid / pallet cover - fit-on rims - pallet wedges - QR codes and barcodes - RFID transponders

## Description

Euro pallet type H1-R (1200 x 800 x H 160 mm) made from standard regrind material. This is a budget version of the H1 pallet, using a material mix of PE and PP. As a result, it does not achieve the same product properties as an H1 version made from ECO regranulate. However, for various industrial applications this pallet variant can be perfectly sufficient. The design and construction of this H1-R pallet are identical - and that design has proven itself thoroughly.
