Description

The stacking bin with dimensions 400x300x175 mm is suitable for versatile use across various industries, such as logistics and manufacturing. With a capacity of 15 liters and a load capacity of 15 kg, this bin offers optimal storage and transport solutions. The solid walls and base ensure maximum stability, and the smooth walls make the bin easy to clean, making it ideal for hygienic applications. Made from high-quality PP (Polypropylene), it is resistant to temperatures ranging from -10 °C to 50 °C. The ergonomic design with closed handgrips on both sides makes the bin easy to handle. The stacking bin is fully recyclable and compatible with Euro pallets, ensuring efficient logistics. Additionally, this bin is suitable for use in automated systems.
