Description

The stacking bin with dimensions 600x400x50 mm is suitable for versatile use across various industries, such as logistics and manufacturing. With a capacity of 5.5 liters and a load capacity of 13 kg, this bin offers an efficient solution for storage and transport. The solid walls and base provide stability, while the smooth surfaces make the bin easy to clean, contributing to hygienic applications. Made from high-quality PP (Polypropylene), it is resistant to temperatures ranging from -10 °C to 50 °C. The closed handgrips on both sides ensure easy handling. The stacking bin is fully recyclable, contributing to sustainability, and is compatible with Euro pallets and automated systems for efficient logistics processing.
