Description

The stacking bin with dimensions 600x400x73 mm is designed for versatile use across various industries, such as logistics and manufacturing. With a capacity of 12 liters and a load capacity of 18 kg, this bin offers an optimal solution for storage and transport. The solid walls and base provide maximum stability, while the smooth walls make the bin easy to clean, ideal for hygienic applications. Made from high-quality PP (Polypropylene), it is resistant to temperatures ranging from -10 °C to 50 °C. The ergonomic design with closed handgrips on the short sides ensures ease of handling. The stacking bin is fully recyclable, contributing to sustainability, and is compatible with Euro pallets and automated systems for efficient logistics processing.
