

Euronorm stacking crate - 600 x 400 x H 318 mm - grey

Product specifications

External dimensions (L x W x H) 600 x 400 x 318 mm

Internal dimensions (L x W x H) 555 x 355 x 302 mm

Capacity 60 liter

Handles Open

Sidewalls Perforated

Material HDPE

Article number 9250.V02.522

Weight (kg) 2,27 kg

Temperature range -10°C to +50°C

Color Grey

Bottom Perforated

Max. load capacity per box 20 kg

Max. static stacking load 550 kg

Max. dynamic stacking load 200 kg

Quantity per pallet 28

Properties

Dimensions: 600x400x318 mm

Material: HDPE (High-Density Polyethylene)

Weight: 2.275 kg

Capacity: 60 liters

Operating temperature: -10 °C to 50 °C

Ergonomic handgrips on long and short sides

Ventilated walls for optimal airflow

Stackable, suitable for automation systems

Description

The stackable crate with dimensions of 600x400x318 mm is designed for efficient use across various industries. The ventilated walls ensure optimal airflow, keeping products fresh during storage and transport. The ergonomic design with open handgrips on the long and short sides allows for easy manual handling. Made from high-quality HDPE (High-Density Polyethylene), this crate is resistant to temperatures from -10 °C to 50 °C and offers a capacity of 60 liters. The sturdy design makes it suitable for use in automated systems, and the stackable construction ensures efficient storage. The crate is fully recyclable, contributing to sustainability and environmental friendliness.
