Description

The stackable crate with dimensions 600x400x73 mm is designed for versatile use across various industries, such as logistics and manufacturing. Thanks to its ventilated walls and base, this crate is ideal for storing and transporting goods that require airflow, such as food and fresh produce. The crate offers a capacity of 12 liters and a load capacity of 15 kg, providing an efficient storage solution. Made from high-quality PP (Polypropylene), the crate is resistant to temperatures ranging from -10 °C to 50 °C. The closed handgrips on the short side ensure easy manual handling. The crate is fully recyclable and compatible with Euro pallets, ensuring efficient logistics. Additionally, this crate is suitable for use in automated systems.
