Fillet box 10 kg - with drain holes

Product specifications

External dimensions (L x W x H)	600 × 400 × 125 mm
Capacity	15 liter
Handles	Open
Sidewalls	Closed
Material	HDPE
Article number	83630300
Weight (kg)	1,5 kg
Temperature range	-30°C to +40°C, briefly up to +90°C
Color	Blue
Bottom	Sloping base with four drain holes and sidewards outlet in top rim

Properties

- **Filleting crates are stackable and nestable.**
- **The nesting principle saves up to 70% of space.**
- **Features a domed bottom construction with 4 drainage holes and lateral discharge in the top edge.**
- **Sturdy design for trouble-free and long-lasting use.**
- **Hygienic and easy to clean.**

Description

Filleting crate with drainage system in Euro-standard dimensions of 600 x 400 mm and a height of 125 mm. The drainage design integrated into the upper rim and base ensures optimal removal of drip water and slime, preventing these substances from entering the fish crate below. The filleting crates are stackable and nestable. When empty, they can be nested inside one another, resulting in up to 70% space savings. The crate has a capacity of 15 litres and is suitable for carrying up to 10 kg of fish. Thanks to its Euro-standard dimensions, this filleting crate can be perfectly combined with plastic pallets, racking systems, and roll containers without wasting valuable space.
