Fillet box 7 kg - with drain holes

Product specifications

External dimensions (L x W x H)	500 × 400 × 110 mm
Capacity	60 liter
Handles	Open
Sidewalls	Closed
Material	HDPE
Article number	83620300
Weight (kg)	1 kg
Temperature range	-30°C to +40°C, briefly up to +90°C
Color	Blue
Bottom	Sloping base with four drain holes and sidewards outlet in top rim

Properties

- **Filleting crates are stackable and nestable.**
- **The nesting principle saves up to 70% of space.**
- **Features a domed bottom construction with 4 drainage holes and lateral discharge in the top edge.**
- **Sturdy design for trouble-free and long-lasting use.**
- **Hygienic and easy to clean.**

Description

Stack-and-nest filleting crate measuring 500 x 400 mm with a height of 110 mm. The filleting crate is equipped with an advanced drainage system. Drip water and slime are efficiently discharged through drainage holes located in the four corners of the base, preventing these substances from entering the crate below. This helps maintain the quality, colour, and freshness of the fish. When empty, the filleting crates can be nested to save space. Thanks to this nesting design, up to 70% of storage and transport space can be saved. The crate has a capacity of 10 litres and is suitable for carrying up to 7 kg of fish.
