Description

40 kg fish box in a stack-nestable design (800 x 450 x H 270 mm - 60 liter) with a **closed base**. Designed for the safe processing and distribution of fresh fish, without leakage of meltwater or other liquids.

Product details

The fish boxes are **stack-nestable**. Nesting empty fish boxes provides a space saving of **up to 65%**. An arrow marking on the upper rim of the fish box indicates how the box should be positioned for nesting. The fish box has a 60-liter capacity and is suitable for up to 40 kg of fish. The fish boxes are equipped with a provision for transponders for track-and-trace of the boxes and their contents. These RFID chips are available on request.

Application

The **40 kg fish boxes** in the version **without base holes** are widely used in the **processing** and **distribution** of fresh fish. They are also used as **collection trays** underneath fish auction boxes with drainage and as **collection boxes** for waste; in that case, they can be provided with the relevant CAT. marking.
