Description

Plastic fish fillet unit / herring cleaning tray (998 x 600 x H 450 mm - 100 liters). Comprised of a plastic rinsing basin (100 liters) and a detachable plastic fillet structure. The basin is equipped with a drainage plug with stop at the bottom right. The fillet structure consists of a blue plastic worktop with an attached white plastic raised edge. The worktop is equipped with a waste inlet on the right rear side. The inlet of the fillet structure (Ø 100 mm) can also be placed on the right front or at another position on the worktop. You can find our fish fillet units wherever quality products need to be prepared hygienically and efficiently.
