Funnel base pallet box GEO box - 1000 x 600 mm - 385 liter - with 120 mm slide gate - on 2 runners - reddish brown

Product specifications

External dimensions (L x W x H)	1000 × 600 × 1110 mm
Internal dimensions (L x W x H)	929 × 544 × 966 mm
Capacity	385 liter
Sidewalls	Closed, with smooth inner walls.
Material	HDPE
Article number	12.27250.DUOBD
Weight (kg)	30 kg
Temperature range	-30°C to +40°C
Color	Red
Bottom	Closed and reinforced, with a central bottom outlet.
Max. load capacity per box	225 kg
Max. static stacking load	1000 kg
Max. dynamic stacking load	500 kg

Properties

Small-format plastic pallet box with funnel base on 2 runners - fully plastic.
Type: Based on the GEO box pallet box 1000 x 600 x H 1110 mm - 2 runners - reddish brown.
Load capacity: 225 kg.
Capacity: 385 liter.
Material: PE plastic (polyethylene) - corrosion-free and durable.
Base: Tapered funnel base.
Angle: The sloping base with a 40° incline supports easy emptying without tilting.
Opening: Central opening 120 x 120 mm.
Slide gate: Manually operated from the short side for controlled release of the contents.
Application: Ideal for dry bulk goods such as granules, seeds, grain, dry animal feed, wood pellets and other small components.
Design: Smooth, funnel-shaped interior to promote easy product flow.
Stacking: Stable rim-stackable.
Stability: Very robust pallet box widely used in practice.
Impact protection: Double-wall structure all around.
Food safety: Suitable for direct contact with food.
Cleaning: Easy to clean thanks to the smooth design; the plastic is resistant to most cleaning agents and chemicals.
Limitations: Not suitable for liquids and moist products. Less suitable for powders (test in advance).
Options: Lid - printing - RFID code - QR code or barcode - central outlet opening 140 x 140 mm.

Description

GEO box pallet container with funnel base (1000 x 600 x H 1110 mm - 385 liter). A compact plastic pallet box fitted with a bottom outlet, centrally positioned in the base of the pallet box. In the lower section, a tapered funnel base is welded in, with a central opening of 120 x 120 mm. This opening is closed with a slide gate that can be operated manually from the short side. The GEO box, with its smooth interior and funnel-shaped base, is ideal for controlled dosing of dry bulk goods such as granules, seeds, grain, dry animal feed, wood pellets and other small components. Thanks to the sloping base at a 40° angle, the product flows out easily when the slide gate is opened. Tilting and dumping are therefore not necessary. The container is suitable for food use.
