## Description

The glass basket 50.NK.121.155185.7X7L consists of a base basket with a red 7x7 compartment division. The maximum glass diameter determines which division is suitable. Measure the widest point of the glass for this. Note: the widest point of the glass is not always at the top or bottom.

The glass basket with dimensions 500 x 500 x H 100 mm has an inner height of 180 mm. Glasses with a height of up to 180 mm can fit in this basket. Due to the open basket construction, washing water and drying air have very good access to glassware and porcelain. The dishwasher baskets thus achieve an optimal washing result and a faster drying process. The bottom is additionally reinforced, allowing the basket to rotate in a basket transport machine with transport hooks. Transoplast's glass baskets are exceptionally durable and have the best references in the market.
