- **Basket has slots on four sides for colour clips, intended for content labelling etc. (see "Accessories" tab)**
- **Open construction for optimum washing result**

Description

Glass basket (500 x 500 mm) with height precisely adjusted to glass height. Basket height ranging from 125 mm to 175 mm, thus suitable for glass heights from 74 mm to 130 mm, for glasses without a foot. This basket variant comes with a compartment divider in the lower basket. The upper rim does not have a compartment divider. Available compartment dividers can be found under the "Downloads" tab. The basket has receptacles on all four sides for color clips for content indication, etc. The bottom is open and specially reinforced, making the basket ideal for use in basket transport machines with transport hooks. Side walls and bottom have an open design for optimal rinsing results and faster drying process. In short, our baskets serve as a "tailor-made suit" for your glassware and other porcelain, preventing breakage and waste of valuable storage space. Moreover, the open design ensures rinsing results that are absolutely presentable.
