**Glass basket 50.NK.200 is supplied with three space divisions: in the lower basket, in the intermediate frame and in the upper frame. The basket structure is provided with an extra intermediate frame for tall glasses**

**Suitable for use in basket transport machines with transport hooks**

**You may easily determine suitable basket layout and height using the size chart. Receive your own size chart by calling us or filling in the contact form**

**The basket height may be made exactly to size**

**Basket has slots on four sides for colour clips, intended for content labelling etc. (see "Accessories" tab)**

**Open construction for optimum washing result**

## Description

Glass basket (500 x 500 mm) where the height is matched to the glass height, basket height ranging from 245 mm to 315 mm. Suitable for glass height 200 mm to 270 mm. Comes with 3 subdivisions: in the lower basket, in the intermediate frame and the upper frame. The basket is equipped with an additional intermediate frame, for high glasses. Basket is 4-sided equipped with color clips. Bottom is open and specially reinforced; therefore suitable for use in basket transport machines with finger conveyor belt. Side walls and bottom have an open construction for optimum washing result and a faster drying process.
