Printing possible

Glass crate BASIC - 600 x 400 x H 250 mm for 24 glasses - max. height 222 mm - max. Ø 85 mm

Product specifications

External dimensions (L x W x H)	600 x 400 x 250 mm
Internal dimensions (L x W x H)	568 x 368 x 234 mm
Capacity	48.9 liter
Handles	Open (four openings)
Sidewalls	Perforated
Material	HDPE
Article number	30.125.4x6.UO
Weight (kg)	2,5 kg
Temperature range	-40°C to +70°C
Color	Grey
Bottom	Perforated, reinforced
European Article Number	7424914766723
Maximum glass height	222
Maximum Ø glass	85
Quantity per pallet	36

Properties

Glass dimensions are crucial for crate selection; measure the glass height and diameter at the widest point.

Euronorm crate designed for rinsing, storing, and transporting glassware; accommodates 24 glasses with a maximum height of 222 mm and maximum Ø of 85 mm.

Glassware dimensions dictate the choice of the appropriate glass crate; unsuitable if the glass is significantly lower than 222 mm or much narrower than Ø 85 mm.

This crate has Euronorm dimensions of 600 x 400 mm and a height of 250 mm.

The double-compartment glass crate holds 24 glasses, offering optimal protection for the most fragile part of the glass, the base.

Glassware is completely clean after cleaning in the crate due to its coarse perforated side walls and bottom, allowing effective access for rinse water and cleaning agents.

Glasses do not touch each other, ensuring optimal protection during storage, transport, and cleaning in dishwashers.

The glass crates have Euronorm dimensions, facilitating perfect combinations with other plate bins and stackable crates with Euronorm measurements.

They can be stacked without space loss on standardized supports, roll containers, and pallets. For further information, contact our product advisors.

Description

Attention before placing an order!

The glass dimensions are decisive for the crate selection. Measure the height of the glass and the diameter at the widest point.

Euronorm crate for rinsing, storing, and transporting glassware. The glass crate with compartmentalization accommodates 24 glasses with a maximum height of 222 mm and a maximum Ø of 85 mm. Glassware dimensions determine the choice of the appropriate glass crate. If the glass is significantly lower than 222 mm or much narrower than Ø 85 mm, this crate is not suitable. Check the other glass crates in this series for a better fitting crate.

This crate has Euronorm dimensions of 600 x 400 mm and is 250 mm high. The double-compartment glass crate accommodates 24 glasses. The most fragile part of the glass, the base, is optimally protected thanks to the double compartmentalization. Glassware is completely clean after cleaning in the glass crate. Due to the coarse perforated side walls and bottom, the rinse water and cleaning agents have good access to the glassware, achieving a clean washing result. The glasses do not touch each other, ensuring optimal protection during storage, transport, and cleaning in dishwashers.

The glass crates have Euronorm dimensions and can be perfectly combined with other plate bins and stackable crates with Euronorm dimensions. Additionally, the glass crates can be stacked on standardized supports, roll containers, and pallets without losing space. For more information, contact our product advisors.
