Article number: 81941811.VV Printing possible

Pallet box type SB3 - 1200 x 1000 x H 790 mm - with 20-compartment divider, compartment dimensions 210x210xH500 mm - closed - 3 sledes - light grey

Product specifications

External dimensions (L x W x H)	1200 × 1000 × 790 mm
Internal dimensions (L x W x H)	1110 × 910 × 620 mm
Capacity	610 liter
Sidewalls	Closed, reinforced
Material	HDPE
Article number	81941811.VV
Temperature range	-30°C to +40°C, briefly up to +90°C
Color	Grey
Bottom	Closed, reinforced
Max. load capacity per box	700 kg
Max. static stacking load	5000 kg
Max. dynamic stacking load	1200 kg
Quantity per pallet	3

Properties

- **Based on the product properties of the SB3 plastic pallet box**
- **Equipped with a 20-compartment divider system (4 x 5) - compartment dimensions 210 x 210 x H500 mm**
- **The divider system is removable and entirely made of smooth HDPE plastic**
- **Particularly robust and durable**
- **For organised and above all safe storage of goods**
- **Options: 20-compartment divider system fixed in place - custom-made divider system - white divider system (suitable for direct contact with unpackaged food products - black on request)**

Description

The basis for this version is the robust SB3 pallet box. Because the SB3 has completely flat inner walls, it is perfectly suited for use with a divider system. A plastic pallet box with a divider system is the ideal solution for the safe and organised storage of products. The divider system is made of solid HDPE plastic and is therefore particularly robust and durable. As standard, the divider system is supplied in a removable version. On request, however, it can also be fixed inside the box.

Applications

A pallet box with removable compartments can be used in a wide range of applications, including:

- Food industry: hygienic storage and separation of packaged food products
- Logistics & distribution: organised and damage-free transport of various goods
- Recycling & waste separation: easy collection and separation of waste streams
- Production & industry: orderly storage of components with optimal product protection

Custom-made solutions

In addition to standard divider systems, Transoplast also supplies custom-made divider systems for the SB3 pallet box. Ask our specialists about the possibilities.
