Article number: 83512201 Printing possible

Half Euro pallet D2 - 800 x 600 mm - with 7 mm raised rims - 3 transverse skids - black

Product specifications

External dimensions (L x W x H)	800 × 600 × 160 mm
Dynamic load capacity	500 kg
Material	PP
Article number	83512201
Weight (kg)	7,9 kg
Temperature range	-30°C to +40°C, briefly up to +90°C
Color	Black
Static load capacity	2000 kg
Edge height	7 mm
Quantity per pallet	30

Properties

- **Plastic alternative to the wooden “Düsseldorf” pallet**
- **The D2 pallet weighs only 8.5 kg — making it very easy to handle. Highly valued in retail**
- **The skids are fitted transversely, just like the “Düsseldorf” pallet. Even so, the entry width is 567 mm - sufficient to handle the short side with hand pallet trucks as well**
- **The pallet deck features a textured relief pattern - to help prevent loads from sliding**
- **In addition, a Lego-style structure is applied on the deck and under the skids - for accurate centring of pallets when stacked**
- **Thick, solid D2 skids - suitable for use on roller and chain conveyors**
- **Studs on the corner blocks - for improved grip of stretch and wrapping film**
- **Marking, logos or numbering on request; location to be agreed**
- **Options: pallet lid / pallet cover - QR codes and barcodes - version without rims - with 24 mm outer rim - anti-slip rubbers (continuous, for both top and underside of the pallet deck) - ESD version**

Description

The D pallet is a half Euro pallet and serves as the plastic alternative to wooden “Düsseldorf” pallets. The design of the D2 pallet is identical to this “Düsseldorf” pallet. The 3 skids are positioned on the short side, i.e. transversely. Despite this, the entry width on the short side is still large enough (567 mm), meaning hand pallet trucks can also be used without any issues. The skids are thick and solid, making them particularly stable - an important feature for use on roller and chain conveyors.
The D2 pallet deck features a textured pattern to help prevent loads from sliding. Empty D2 pallets are also centred perfectly thanks to the raised rims and the Lego-style structure on both the deck and the underside of the skids. This ensures D2 pallets stack neatly on top of each other.
The D2 pallet with 7 mm rims is designed for efficient transport of Euronorm stackable bins. For additional centring of a full pallet load with stackable bins, we supply a pallet lid 800 x 600 mm.
