Industrial / ISO pallet CS3-L - 1200 x 1000 mm - with 7 mm rims - 3 pallet skids, open with reinforcement ribs - black ESD

Product specifications

External dimensions (L x W x H)	1200 × 1000 × 150 mm
Dynamic load capacity	1000 kg
Material	HDPE with carbon compound
Article number	83222201
Weight (kg)	15,2 kg
Temperature range	-30°C to +40°C, briefly up to +90°C
Color	Black
Surface resistance	?1x10 E4 Ohm to <1x10 E11 Ohm
Static load capacity	5000 kg
Edge height	7 mm
Load capacity in racks	400
Quantity per pallet	16

Properties

- **Electrostatic dissipative (ESD): protects sensitive components against charge build-up and electrostatic discharge**
- **Undersides of blocks and pallet skids are open with reinforcement ribs**
- **Raised rims around the deck of the CS3-L prevent loads from slipping and prevent empty pallets from sliding on each other**
- **The CS3-L is extra strong thanks to the robust connection between the skids and the blocks**
- **Optional fully welded (closed) skids increase the pallet's strength and impact resistance**
- **Marking, logos or numbering on request; location to be agreed**
- **Options: Pallet lid / pallet cover - QR codes and barcodes - RFID transponders - closed skids - version without rims, with 7 or 22 mm deck rims, with 22 mm side rims along the deck**

Description

Our ESD pallets are produced from high-quality plastic to which an ESD compound is added. This gives the pallet electrically conductive properties. It prevents electrostatic build-up and subsequent discharge, which can damage sensitive electronics.
The CS3-L is designed for efficient transport of Euro standard stacking bins (ESD version). For additional centring of a full pallet load with stacking bins, we supply a 1200 x 1000 mm pallet lid in an ESD version.
