Product specifications

External dimensions (L x W x H)	1200 × 1000 × 150 mm
Dynamic load capacity	1000 kg
Material	HDPE
Article number	83320801
Weight (kg)	15 kg
Temperature range	-30°C to +40°C, briefly up to +90°C
Color	Grey
Static load capacity	5000 kg
Edge height	7 mm
Load capacity in racks	400
Quantity per pallet	16

Properties

- **D3-5 industrial pallet made from high-quality HDPE and highly impact-resistant**
- **Food-grade and easy to clean thanks to the continuous openings in the pallet deck**
- **Strong medium-duty pallet with low tare weight - easy to handle**
- **Widely used in food and hygiene applications - also in freezer conditions**
- **Equipped with 5 skids (3 longitudinal and 2 transverse) for stability and for block stacking loaded pallets**
- **Load capacity can be significantly increased using corrosion-resistant reinforcement profiles in the pallet deck**
- **Racking capacity is 400 kg. After fitting 7 inserts (4 longitudinal and 3 transverse), racking capacity increases to 1250 kg**
- **Underside blocks and skids are open with reinforcing ribs**
- **Extra strong due to the angled connection between the blocks, skids and pallet deck**
- **Skids are chamfered on both sides for trouble-free handling**
- **The D3-5 pallet is frequently used for custom-made plastic pallets, especially when using our mirror welding machine**
- **Options: Pallet lid/pallet cover - pallet collars - QR codes and barcodes - RFID transponders - 22 mm rims on the deck - 22 mm rims along the deck - without rims (optionally with pop-ups) - full-length anti-slip rubbers (for the top and underside of the pallet deck)**

Description

Our D3-5 industrial pallet is an excellent medium-duty pallet made from food-grade plastic - highly impact-resistant and extremely durable. Thanks to the raw material used, the pallet is suitable for direct contact with food and is also highly freezer-resistant. The D3-5 is a true multi-purpose pallet for the food sector and other hygiene applications. The version with rims is widely used in combination with plastic stacking bins and crates.

In addition, the D3-5 pallet is equipped with 5 skids. This enables block stacking of loaded pallets. For this type of stacking, an even and stable support remains essential.
