Product specifications

External dimensions (L x W x H)	1200 × 1000 × 150 mm
Dynamic load capacity	1000 kg
Material	HDPE
Article number	83320800
Weight (kg)	15 kg
Temperature range	-30°C to +40°C, briefly up to +90°C
Color	Grey
Static load capacity	5000 kg
Load capacity in racks	400
Quantity per pallet	16

Properties

- **Industrial pallet type D3-5 made from virgin HDPE**
- **Food-grade and easy to clean due to the continuous openings in the pallet deck**
- **Strong medium-duty pallet with low tare weight; easy to handle**
- **Widely used in food and hygiene applications, including freezing environments**
- **Equipped with 5 pallet skids (3 longitudinal, 2 transverse) for stability and for block-stacking loaded pallets**
- **Load capacity can be significantly increased by using corrosion-resistant reinforcement profiles in the pallet deck**
- **Racking load capacity: 400 kg. With 7 inserts applied (4 longitudinal, 3 transverse), racking capacity increases to 1250 kg**
- **Undersides of blocks and skids open with reinforcement ribs**
- **D3-5 pallet is extra strong due to the angled connection between blocks, skids and the pallet deck**
- **Pallet skids are bevelled on both sides for smooth handling**
- **Frequently used as a basis for custom-made plastic pallets, especially when utilising our mirror-welding machine**
- **Options: Pallet lid / pallet cover – fit-on rims – QR codes and barcodes – RFID transponders – 22 mm rims on the deck – 22 mm rims outside the deck – 7 mm rims on the deck – continuous anti-slip rubber strips for the deck**

Description

Our industrial pallet D3-5 is an excellent medium-duty pallet made from food-grade plastic, highly impact-resistant and exceptionally durable. Thanks to the material used, the pallet is also highly resistant to freezing. The D3-5 is a true multi-purpose pallet for the food sector and other hygiene applications. The rimless version is used in situations where goods need to be slid off the pallet.
