Product specifications

External dimensions (L x W x H)	1200 × 1000 × 150 mm
Dynamic load capacity	1000 kg
Material	Recycled ECO-HDPE
Article number	83320200
Weight (kg)	15 kg
Temperature range	-30°C to +40°C, briefly up to +90°C
Color	Black
Static load capacity	5000 kg
Load capacity in racks	400
Quantity per pallet	16

Properties

- **Industrial pallet type D3-5 ECO (1200 x 1000 x H 150 mm) without rims. Optional pop-ups for centring empty pallets when stacked.**
- **Strong medium-duty pallet with low tare weight - easy to handle**
- **Equipped with 5 skids (3 longitudinal, 2 transverse) - for stability and block stacking of loaded pallets**
- **Racking capacity: 400 kg. Can be significantly increased using corrosion-resistant reinforcement profiles (also retrofittable)**
- **after fitting 3 longitudinal inserts: 1000 kg**
- **after fitting 4 longitudinal inserts: 1250 kg**
- **Underside blocks and skids open with reinforcing ribs**
- **Extra strong thanks to the angled connection between blocks, skids and deck**
- **Skids are chamfered on both sides for trouble-free handling**
- **Made from high-quality ECO regranulate - high impact resistance and long service life**
- **Suitable for packaged foodstuffs**
- **The D3 ECO pallet is frequently used for custom-made plastic pallets - with or without reinforcement profiles in the deck**
- **Marking, logos or numbering on request. Position by agreement**
- **Options: pallet lid/pallet cover - pallet collars - QR codes and barcodes - RFID transponders - 22 mm rims on the deck - 22 mm rims along the deck - without rims (incl. pop-ups if required) - continuous anti-slip rubber strips (for top and underside of the deck)**

Description

Our D3-5 ECO plastic industrial pallet is a true all-rounder and is therefore widely used across logistics. The pallet has a low tare weight, making it easy to handle. With reinforcement profiles, it can be upgraded from a medium-duty pallet to a true racking pallet. Both non-food businesses and the retail sector use this pallet successfully.

This D3-5 ECO variant is supplied without rims. When goods are pushed onto or off the pallet mechanically, raised rims can be a hindrance. That is why we also supply the D3-5 ECO without rims. For centring empty pallets without rims when stacked, our D3-5 pallets can be equipped with pop-ups. This must be specified during production or when ordering.

In addition, the D3-5 pallet is equipped with 5 skids. This allows block stacking of loaded pallets. For this type of stacking, an even and stable support remains essential.

The D3-5 pallet is additionally reinforced at several sensitive points, such as the transitions from the blocks to the skids and to the top deck. Made from high-quality HDPE ECO regranulate - for an attractive price and sustainable use.
