Description

Robust plastic insert bin **type PRO** (278 x 178 x H 99 mm) for use in Euronorm stacking bins **600 x 400 mm**. **1/4 format - lengthwise** ; allowing four insert bins to be placed in each stacking bin. It can of course also be combined with other PRO formats (1/8 and 1/16).

Application

With PRO insert bins, you can easily create a subdivision in stacking bins. PRO insert bins are removable and stackable with each other. The insert bins are suitable for use in Euronorm stacking bins 600 x 400 mm, from a bin height of 120 mm. This takes into account that stacking bins nest slightly into each other. PRO insert bins are easy to remove thanks to **internal grip edges**.

Cases

PRO insert bins are also used in plastic cases **600 x 400 x H 133 mm**. These cases are carried vertically. For this, a lockable lid with an **integrated foam sheet** must be fitted to seal off the insert bins.
