Article number: 30.020I.EPP

Insulated box-in-box with lid - 400 x 300 x H 193 mm

Product specifications

External dimensions (L x W x H)	400 × 300 × 193 mm
Internal dimensions (L x W x H)	320 × 220 × 115 mm
Capacity	8 liter
Handles	Stacking crate: open - insulated box: recessed handles on ground level.
Sidewalls	Stacking crate: perforated - insulated box: closed and smooth
Material	PPC
Article number	30.020I.EPP
Weight (kg)	1,14 kg
Bottom	Stacking crate: open and extra reinforced - insulated box: closed and smooth
Quantity per pallet	88

Properties

- **Insulation box-in-box system, consisting of a plastic stacking crate and a removable insulation box with a clamping lid.**
- **The clamping lid seals hermetically, minimizing temperature loss.**
- **The insulation box is made of EPP (25 mm), providing high insulation value and long lifespan.**
- **The accommodating stacking crate is fully perforated (see "Related products").**
- **The stacking crate provides additional protection for the insulation box.**
- **External dimensions conform to Euro norm, allowing seamless stacking with other Euro norm stacking crates and bins (400 x 300 mm and 600 x 400 mm).**

Description

Insulation box-in-box designed in Euro norm format (400 x 300 x H193 mm). Consisting of a fully perforated stacking crate in which an insulation box is integrated. The insulation box is completely closed and made of expanded polypropylene (EPP). EPP insulation boxes are particularly durable and have a high insulation value. Additionally, the accommodating stacking crate provides extra protection during transportation and other intensive use. Stacking with other Euro norm crates and bins is possible.
