

Article number: 80410800.DUO.L

Lay-on lid 2180 x 1000 mm for SB3 duo palletboxes

Product specifications

External dimensions (L x W x H) 2192 × 1012 × 80 mm

Material HDPE

Article number 80410800.DUO.L

Weight (kg) 13,5 kg

Temperature range -30°C to +40°C, briefly up to +90°C

Color Grey

Properties

Very robust plastic lay-on lid for 2180 × 1000 mm SB3 duo boxes

With the lid, all boxes remain stackable

When stacked, boxes with the lid are safely centred by the lid rims

Suitable for use with lashing straps

Options: printing

Description

Product features

The robust construction of the standard SB3 lid makes it ideally suited for custom products. The standard SB3 lid is made of high-quality HDPE material in one piece and reinforced at the base. So it is perfectly suitable for custom solutions that fit our SB3 custom-made pallet boxes.

Composition

This XL-format lid is composed of two SB3 lids 1200 x 1000 mm. Both covers are divided, then connected and the connecting seam is then welded. This creates a solid one-piece lid with external dimensions 2192 x 1012 mm. This XL lay-on lid that falls over the edge of the SB3 Duo Box prevents rain and dirt from entering.

Applications

The industries in which XL-format pallet boxes are used are very diverse. In all cases, however, they are intended for the storage or transport of long or bulky goods. The correct size of the box is important here, which is suitable for that one specific application. A matching custom lid is also often requested. Transoplast has developed a wide range of XL-format pallet boxes and lids as custom-made solutions. The choice is therefore already extensive. If your size is not listed, please contact our product specialists, they will be happy to help you.
