Description

This pallet lid 1200 x 800 mm is intended for use with a Euro pallet fitted with plastic pallet collars – including type 99.49715. Closing it with a lid creates a safe load unit for transport and storage. Thanks to the lid design, another 1200 x 800 mm pallet can be stacked on top. Raised rims on the lid prevent the pallet from sliding off. This allows multiple pallet units to be stacked securely and stably.
The lid is equipped with integrated strapping channels for banding, both lengthwise and crosswise. This makes it easy to secure pallets with collars using lashing straps.
