MINI BOX pallet box - 1040 x 640 x H 610 mm - closed - 4 feet - grey

Product specifications

External dimensions (L x W x H)	1040 × 640 × 610 mm
Internal dimensions (L x W x H)	930 × 590 × 458 mm
Capacity	250 liter
Sidewalls	Closed, reinforced
Material	HDPE
Article number	10.1425.B.61
Weight (kg)	11,4 kg
Temperature range	-30°C to +40°C, briefly up to +90°C
Color	Grey
Bottom	Closed, reinforced
Max. load capacity per box	250 kg
Max. static stacking load	1000 kg
Quantity per pallet	4

Properties

- **MINI BOX plastic pallet box, dimensions: 1040 x 640 x H 610 mm - 250 liter**
- **Compact pallet box for medium-sized loads**
- **With closed side walls and base**
- **Fitted with 4 feet - suitable for use with forklifts and pallet trucks**
- **Equipped with generous handles on both short sides - for easy handling**
- **MINI BOXES are stackable - also with a matching lid**
- **Suitable for direct contact with unpackaged food (food-proof)**
- **Stackable - maximum loaded: 8 on 1 (stacking load 1800 kg). Due to the size of the box, a maximum stacking height of 5 is recommended**
- **The inner walls are flat and smooth - for easy emptying and cleaning**
- **Resistant to weather influences, UV-resistant and resistant to common cleaning agents**
- **100% HDPE plastic: fully recyclable and circular**
- **Options: lid - printing - QR codes and barcodes - mobile**

Description

MINI BOX plastic pallet box (1040 x 640 x H 610 mm - 250 liter) on 4 feet. A medium-sized plastic pallet box with closed side walls and base. The pallet box stands on feet, is easy to handle and stackable.

The size

MINI BOXES are medium-sized plastic pallet boxes. They provide an ideal intermediate size when stacking bins are too small and industrial-size pallet boxes (1200 × 1000 mm) are too large. Thanks to their dimensions, MINI BOXES can still be handled manually with ease. For this reason, every MINI BOX is fitted with generous handles. In addition, they are equipped with 4 feet, making them highly suitable for use with equipment such as forklifts. The feet make it possible to stack the boxes using internal transport equipment.

The features

All MINI BOXES are made of HDPE plastic and are therefore resistant to weather influences, moisture and cleaning agents. Thanks to the material used and the robust construction, the box is impact-resistant and particularly stable.

Ease of use

MINI BOXES are compact boxes that are easy to manoeuvre. They are easy to stack and therefore efficient in storage. Despite their compact size, MINI BOXES can store and transport considerable quantities of goods.
