Mobile plastic shelving unit for Gastronorm - 1193 x 410 x H 1920 mm - with 4 shelves and top section - grey

Product specifications

External dimensions (L x W x H)	1193 × 410 × 1920 mm
Material	PVC
Article number	KGV11941172/192-G
Weight (kg)	22 kg
Temperature range	-40°C to +40°C / briefly up to +80°C
Color	Grey
Number of shelves	4
Shelf spacing (mm)	450
Underneath space (mm)	170
Upright spacing (mm)	1089

Properties

Mobile Gastronorm shelving unit - mobile plastic shelving for Gastronorm (GN) bins and trays with a length or width of 325 mm (GN 1/1 - GN 2/3 - GN 1/2 and GN 1/3)

Each shelf provides space for 2 GN 1/1 trays

Dimensions 1193 x 410 x H 1920 mm - grey with dark grey accents (GREY version)

The shelves are fitted with removable plastic grids in two widths: 216 mm and 72 mm - for flexible positioning of GN bins

Number of shelves: 4 - spacing between shelves: 3 x 450 mm

The shelving unit is fitted with 4 plastic swivel castors with rubber tread, 2 of which are braked (both fitted as standard on one long side, unless ordered otherwise)

Made from high-quality plastic and therefore highly resistant to chemicals - for example salts and chlorine

Extremely robust, corrosion-free plastic with a long service life

Hygienic, easy to clean and food-safe

Particularly easy to move thanks to the lightweight construction

The shelving unit is supplied without GN bins

Load capacity: 120 kg per linear metre

Options: green with dark grey accents (DESIGN version) - bumper rollers - separate grids 216 mm or 72 mm

Description

Mobile plastic shelving unit for Gastronorm (GN) bins and trays. The shelves are fitted with loose plastic insert grids. These grids are removable and adjustable, allowing GN bins and trays with a width of 325 mm to be suspended in the shelves. A mobile shelving unit is particularly practical when ingredients need to be used at different workstations or transported to a cold room.

Application

The plastic shelves are fitted with removable grids. The grids are supplied in widths of 216 mm and 72 mm. On shelves where no grids are fitted, or when the grids are repositioned, Gastronorm bins with a width of 325 mm can be suspended in the shelf. The remaining shelves can be used for storing other goods.

Design

Made entirely from robust and **corrosion-free** plastic and fitted with 4 plastic swivel castors, **2 of which are braked**. This allows the trolley to be **parked securely** without moving during loading.

Thanks to the use of high-quality plastic, the Gastronorm trolley is particularly **easy to clean** and does not provide favourable conditions for bacteria and mould. This supports optimal **hygiene**. As the plastic used is suitable for temperatures down to **-40°C**, the trolley can be used without difficulty in **cold rooms and freezers**.

The plastic is also resistant to chemicals and particularly **resistant to chlorine** and **salts**. Humid environments are no problem for the trolley, while **rust formation** is completely **excluded**.
